CM/ECF 4.3

CM/ECF 5.0

Claims Register

“View multiple documents” option available for the docket report

“View multiple documents” option will be available in the Claims Register.

When the option is selected, the report output will include a check box beside each claim document to which the user has access.

New! “[View claims summary report](#)” allows users to run a Claims Summary report that will display a condensed list of claims.

- Preview the amount of each claim by hovering over the amount claimed.
- [Sort the report](#) by clicking on column headers
